Proctor academy andover nh

This committee works with the Development Office to organize volunteers, set up the program and support activities for Fall and Spring Family weekends. The main focus is to emphasize hospitality and parental involvement and to recruit volunteers to welcome parents on Family weekends and act as host/hostesses during the weekends. This committee was formed with the idea that PAPA is a service organization and there are ways parents could be supportive of the school with regard to the students and student activities. The committee has one point person who is the liaison between Proctor's Student Activities staff and parent volunteer event coordinators. Areas PAPA might assist are: Providing housing during Project Period Support for guest speakers Coordinating volunteer efforts for PAPA sponsored student events, the spring formal, senior dinner or other on-campus events. Each Friday, our Communications Team shares a comprehensive newsletter with parents. Send updated email addresses to Ellen Hackemann at hackemane@proctoracademy.org. Please add communications@proctoracademy.org to your email Address Book. If you use a spam filter program, please assign this address a status of 'safe' or 'trusted.' A sense of community can only truly be felt when you step on campus. The strength of Proctor's community comes from the depth of relationships formed between students and faculty. An egalitarian student body gives equal value to each student regardless of age. A relaxed dress code and policy allowing students to address teachers by first names contribute to the informal culture of the school. Students are treated as young adults and asked to collaborate with their teachers in the learning process.By redefining academic rigor as the process through which students push themselves beyond their comfort zones, students and faculty learn just how important trust is to learning. Honors and advanced placement courses complement non-traditional classes and challenging off-campus programs, allowing students and teachers to form relationships around shared interests. Formal on-campus academic support takes place in Proctor's Learning Skills program, but it is the informal support provided by teachers who offer extra help sessions at breakfast, in their dormitories, or in their classrooms in the evening that further emphasizes self-advocacy skills and encourages academic risk-taking. Because we are challenging, we are also supportive. Proctor is widely recognized for national leadership in experiential education. To our community, these programs are not separate but integral to the Proctor experience, as almost all students elect to spend a trimester or two enrolled in off-campus programs. Choosing from over 135 academic courses, five term-long off-campus programs, more than 30 art courses, and 30 athletic and afternoon programs allows students to craft a Proctor experience that is truly unique.Whether your interests involve starting a radio program in Proctor's state-of-the-art recording studio, pursuing athletics at the next level, studying advanced biology or robotics, or building a boat in the woodshop, opportunities abound for you to engage in both the pursuit of new avocations and the mastery of an existing passion. For 175 years, Proctor's campus has been at the center of the rural New England village of Andover, New Hampshire. An older church serves as the school's Health Center, the former town livery stable hosts the visual arts studios and historic homes serve as dormitories. Newer, modern buildings have emerged over time, but the feel of a small village remains. Like within a small town, at Proctor students are seen, known and heard and community is central to all that we do. Proctor's 2500 acre campus allows our land to serve as the ultimate classroom for Proctor students. Our dedication to environmental sustainability extends beyond the classroom and guides our educational programs, campus operations and community engagement, fostering a strong sense of responsibility among students, faculty and staff.Experiential Learning and 5 Term Long Off-Campus Programs ~ Ocean Classroom, Mountain Classroom, European Art Classroom, Proctor in Monteverde, Costa Rica and Proctor in Segovia, Spain.Integrated Academic Support Program ~ Proctor has had an integrated, robust academic support program since the 1950s with three levels of academic support:Academic Concentrations ~ Empowering students to design an individualized program of coursework, engage in experiential learning beyond campus and present a culminating capstone project during senior year. Proctor Academy 204 Main Street PO Box 500Andover, NH 03216 p. (603) 735-6000 f. (603) 735-6300 Located in Andover, NH, Proctor Academy is a private coeducational day and boarding school for grades 9–12. Students benefit from a rigorous academic program, experiential off-campus programs, fine and performing arts, competitive athletics, and a wide selection of extracurricular activities. The school was established in 1848 by the town of Andover, with Dyer H. Sanborn as the principal. There are about 370 students. Proctor Academy first began as Andover Academy, established in 1848 by the town of Andover. The idea of the school spawned from a sewing group conversation between the wives of the area's prominent families, in the living room of attorney Samuel Butterfield. The women shared a strong conviction that their town needed a school for its expanding population.[4] On June 23, 1848, the incorporation of the academy was approved, with Samuel Butterfield as president, Walcott Hamlin as secretary, and True Brown and John Fellows as executive committee members. The academy opened its doors in August 1848, on the second floor of the church on Main Street,[5] with many of the desks, chairs and chalkboards donated by the Butterfields.[4] Mrs. Eliza Butterfield set up the curriculum with Dyer H. Sanborn as the principal and Miss Eliza Wingate as "preceptress". The first term had 43 girls and 65 boys enrolled, but within four years the school had grown to just over 250 students. Principal Sanborn (1850-1851) was very popular with the students, and the school thrived through its first couple of years with funding from generous patrons. After two years, Sanborn stepped down, and Moses Leland Morse of Bowdoin College took over for the next two years as principal. Under Morse, the student body more than doubled, as chemistry was added to the curriculum and the guaranty fund reached \$3,000. Woodbury Langdon, Luther Puffer (law student), and John Simonds were some of the first graduates to go on to college. After Principal Morse stepped down, Thaddeus W. Bruce (1852-1853) of Dartmouth College took the helm with Miss Marcia Foster as assistant (who later married).[6] Around this time future world-renowned artist David Dalhoff Neal also attended classes. George Dustin took over as principal in 1854 when the school fell victim to a smallpox outbreak, in which one of the teachers and a former student died. The smallpox epidemic in 1854-1855 forced the school to close, and for the next three decades the school struggled with its identity and funding. In 1857, the school reopened its doors as the New England Christian Literary and Biblical Institute, then again in 1860 as the Andover Christian Institute. In 1865, the school was closed and reopened in Wolfeboro, New Hampshire, as the Wolfeboro Christian Institute. As the school struggled, former Andover resident John Proctor, the inventor of the threaded wood screw, returned, in 1857, to build up the town. By the 1870s Proctor helped to return the school to Andover, debt-free, as well as build a new dormitory on the site of modern-day Gannett House. In 1879, the Unitarian Church sought to purchase the Andover school in order to create a school "free from...theological dogmatizing and unnatural religious methods." Andover was a hotbed of Unitarian thought, which helped to facilitate the sale of the school. In 1881, the school was opened as Proctor Academy in honor of John Proctor's contributions to the school.[7] Not realizing the severity of the economic downturn, in 1932 the trustees of the school invested \$45,000 to build Maxwell Savage Hall. At the first assembly of the 1935 school year, Headmaster Carl Wetherell announced that he was quitting due to the poor outlook for the school. A search for a replacement was hurriedly started. John Halsey Gulick took the job, and immediately instituted sweeping reforms of the school, creating mechanical arts programs such as boat building, wood shop, and machine shop. Students were involved in the upkeep and improvement of the school, clearing the land for the school's first ski area, Slalom Hill, as well as a farm which was used to feed the community.[8] Lyle Farrell—a 1929 graduate of the University of New Hampshire and captain of the 1928 Wildcats football team[9]—who started teaching at Proctor in the 1930s, took over as Headmaster of the school in 1952. During his time as Headmaster, he pushed for the expansion of the school, leading to the construction of Holland Auditorium, Shirley Hall, Farrell Field House, Leonard Field, Farrell Field and the Blackwater Ski Area. Farrell also established the learning skills programs for college-bound students with dyslexia.[10] In 1971, David Fowler succeeded Lyle Farrell as Headmaster. He instituted a democratic student government, rather than a seniority system. Realizing the unique location and programs that Proctor offered, they created a wilderness orientation program for new students, which still exists today. In 1974, the mountain classroom program was created, combining an Outward Bound type of small group outdoor experience with specialized academic sessions. By 1975, Proctor had faculty and facilities in Madrid, Spain, and Clermont-Ferrand, France, which led to later experiential education programs in Segovia, Spain, and Pont-l'Abbé, France.[11] European Classroom, an art and French language program, was created in 2011, replacing the France program. Proctor Academy is located on 2,500 acres (10 km2) in the town of Andover, New Hampshire. The property is a state-certified tree farm. One of the newest additions to the campus, Peabody House, was completed in 2008[12] on the former site of Morton House, which was torn down in August 2007. Proctor Academy has 19 dormitories that are either in use or are no longer in use:[13] Burbank East and West Carr House (built 1870) Carriage House/ Eco Dorm (built 1998) Davis House (built 1978) Elbow Pond Dorm Gannett House Gulick House Ives House Johnson House (built 1978) King House Mackenzie House Mary Lowell Stone House "MLS" (built 1870) Peabody House (built 2008) Rulon-Miller House Sally B (built 2013) Summerfield House (built 1978) Thoreau House (burned in June 2016) West End Dormitory Proctor's net-zero ready Brown Dining Commons (built in 2016), the "greenest" dining facility built at an independent school in New England, features 40 geothermal wells, rain gardens to collect run-off, solar panels, and high efficiency construction materials. Recording Studio (built 2006), state-of-the-art building-within-a building designed to isolate the studio from any outside noise[14] Steve and Sarah Wilkins Meetinghouse (built 2001), theater and meetinghouse for all-school assemblies, also contains the dance studio, dressing rooms, black box, scene shop, and green room.[13] The Cabin (built 1991), cabin located on the top of the hill behind Proctor's dorms, where students are allowed to stay for the night on the weekend[13] Yarrow's Lodge, ski lodge at the Blackwater Ski Area, base for the student ski patrol and the storage location for the school's snowcat[15] Matt Nathanson Notable people who have attended the school include:[16] Bob Beattie, '51 - former US Alpine Ski Team Head Coach and ABC television commentator Jerome Dyson, '06 - basketball player for Hapoel Jerusalem of the Israeli Premier League, 2012-13 top scorer in the Israeli Basketball Premier League Peter Elbow - English professor, author of Writing without Teachers Nicholas Fairall, '07 - US Olympian 2014 Winter Games, US Ski Team, ski jumper John McVey - singer/songwriter Matt Nathanson, '91 - singer/songwriter David Dalhoff Neal - artist, one of the first students in the early 1850s Robert Richardson, '73 - Oscar-winning cinematographer (Platoon, JFK, The Aviator, Kill Bill) Carl Van Loan, '98 - US Olympian, US Ski Team Nordic Combined, Large Hill team Cole Williams, '99 - television actor (Scrubs, 8 Simple Rules) New Hampshire portal ^ a b "Proctor Academy - School Overview".
